

CROP EXCELLENCE®

# STICKER

0 = HIGH AVAILABILITY  
LESS PACKAGING / LESS WASTE

## PREMIUM SPREADER/STICKER, DEPOSITION AGENT

### PRINCIPAL FUNCTIONING AGENTS

Latex and Silicone: 63%

Inert ingredient: 37%

### GENERAL INFORMATION

Crop Excellence® **STICKER X-TREME®** is a Premium non-ionic spreader/sticker foliar surfactant. Specifically formulated to improve contact chemistries and tank mix products that require excellent coverage and rain fast duration. **CE STICKER X-TREME®** is an extremely safe surfactant, that provides excellent coverage and resist loss due to environmental impact. **CE STICKER X-TREME®** is for use in turf, ornamental, agriculture, right away, industry and aquatic settings. Apply **CE STICKER X-TREME®** when superior coverage and performance is demanded.

**CE STICKER X-TREME®** merges the binding of latex and the spreading of organosilicone to build a premium spreader sticker. **CE STICKER X-TREME®** increase deposition, run off and securing rain fastness. **CE STICKER X-TREME®** produces a consistent film, protecting pesticides from the loss due to environmental fate. Apply 30 minutes prior to irrigating or potential rain.

### GENERAL USE

For use on Turf, Ornamental, Agriculture, Right Away, Forestry and Aquatics.

Apply **CE STICKER X-TREME®**, by volume to 100 gallons of spray solution water, based on spray volume per acre. Rate: fluid oz per 100 gallons.

Above 50 gal / acre 8 - 16 oz / 100 gal

10 gal - 50 gal / acre 16 - 24 oz / 100 gal

Below 10 gal / acre 24 - 32 oz / 100 gal
